

# Small Adhesive Binder "PICCOLO"

Finally available: the low priced one-man adhesive binder for short runs with the quality of big binders.

The "PICCOLO" produces adhesive bound booklets, magazines, catalogues etc. and can cover sewn books. The ideal machine for short runs, samples, repairs, glue testing in binderies and in-plant printers, universities, banks and insurance companies etc.

The "PICCOLO" offers the following advantages:

- simple operation by one person
- quick setting in few minutes
- big size range: min. 100 mm, max. 450 mm, 3—60 mm thickness
- very good binding strength because of dustless saw blade or milling head with notcher and brushes.
- interchangeable glue pots for hotmelt or cold glue.
- dual glue rollers for exact glue application
- thermostatically controlled glue temperature
- cam-operated glue scrapers
- cover pressing unit with cover thickness adjustment
- uses limited floor space
